**Objective:** To develop an international glossary of terms for the description of landslides, for the suggested methods of their analysis and for structures for their mitigation.

**Terms of Reference:** To achieve the objective, tasks to be undertaken may include:

1. The Commission continues the work of the UNESCO Working Party for World Landslide Inventory on Landslide Nomenclature.
2. Preparation of a second edition of the Multilingual Landslide Glossary (in UNESCO languages and/or other popular languages).
3. Review and include all the published work of the WP/WLI (International Geotechnical Societies' UNESCO Working Party on World Landslide Inventory).
4. Review and collect case studies of the different kinds of landslides world-wide.
5. Define all the terms currently in use in the Working Classification.
6. Add and Update new terms, which are generally accepted by most of the National Groups (may include Causes of Landslides and Remedial Measures).
7. Solicit representation of all interested National Groups in the work of the Commission.
8. Communicate and present progress via IAEG website and IAEG meetings.
9. Publication of final comprehensive report of the second edition of the Multilingual Landslide Glossary.
