And I have also held the positions of Vice dean of Planning Affairs, Vice Dean and Dean of the College of Natural Sciences at Chungbuk National University, Korea.

My careers in academic society and university are suitable to serve as Vice President of IAEG for Asian region. If elected as Vice President of IAEG for Asia, I will perform the following activities for Asian National Groups and IAEG.

1. One of the most important duties of Vice President is to support the administration of IAEG. **I will attend all executive committee meetings and actively perform the rolls of Vice President.**

2. The number of members is important to IAEG. There is great scope to increase its membership in Asian countries. **I will increase IAEG's membership in Asian countries to 150% of the current level.**

3. Only 15 Asian countries have joined IAEG. **I will recruit new Asian National Groups to join IAEG.**

4. Regional conferencing is important to allow members of IAEG to interact and exchange ideas. **I will support the 12th Asian Regional Conference, which will be held in Korea in 2019, and the 13th Asian Regional Conference.**

5. Demand for engineering geologists in developing countries is high, but supply is insufficient. **I will support developing countries to educate engineering geologists. I will organize young engineering geologist groups in Asia, and arrange for them to interact with corresponding groups in IAEG.**

**6. I will conduct a program that invites lecturers to national group conferences so that academic exchanges can take place actively.** Recently, during Corona Pandemic, lecturers from Japan and Taiwan were invited at the Korean National Conference by video, and the president of IAEG was invited as a special lecturer by video.

**7. I will organize and hold an executive committee meeting for Asian national groups every year.** The meeting is important to decide and implement action plans for the promotion of the groups.
